

Control4® HC-250 Controller

Control4® HC-250 Controller C4-HC250-BL-1

The award-winning HC-250 delivers instantaneous control at an exceptional value. Its sleek design and small form-factor make it ideal for single-room control systems, universal remote replacements or as a way to deliver on-screen control to every television in larger residential or light commercial installations. A powerful 1GHz processor running the Control4® operating system delivers incredibly fast, interactive control and makes the HC-250 a versatile and powerful player in any control system. In addition, the HC-250 features out-of-box software capability that includes the TuneIn*, as well as Control4 App and Video/Audio Intercom licensing.

- Control4 App license enables in-home control from multiple iOS and Android mobile devices as well as PCs. Add a 4Sight subscription and enable remote control and access from virtually anywhere.
- Video/Audio Intercom license for whole-home communications with Control4® touch screens and door stations.
- TuneIn delivers over 70,000 streaming Internet radio stations.
- Next-generation core and ZigBee processors deliver a new level of speed and performance for instantaneous interactive on-screen control and access to lighting, security, music and video libraries.
- Elegant, low-profile design features an integrated power supply for flexible, simple installation behind televisions or on a shelf.
- Incredibly fast, intuitive control from a touch screen, remote, or TV on-screen navigator.
- Built-in PoE capability provides power and network connectivity over a single CAT5/CAT6 cable.
- Certified HDMI with audio and video capability delivers reliable connectivity to today's televisions and receivers.
- Integrated Wireless-N and ZigBee simplify installation while delivering high-performance network connectivity.
- 2 audio outputs—1 analog and 1 HDMI—and 1 analog audio input.
- USB port enables connection to external hard drives for easy access to music content. eSATA and USB ports enable connections to external storage with music or video content.
